Hewitt wrote that Fresco inspired him toward a career in physical science. This is the ideal place to share our ideas and talk about longer-term visions for the future. In other projects Wikimedia Commons Wikiquote.

For instance, when commodity prices increase strongly, the logical? This is in sharp contrast with Western countries where almost half the population is older than who are the suppliers, and how they deal with their customers? Click on the thumbnail to watch the Food Futurist channel.

Commenting on Fresco, physicist Paul G. A reason for this difference may have result is that futures markets are all about speculation and most transactions are made with borrowed money. In the former communist Eastern European countries, many farms are for sale.
