It examines the development of strategy, especially commerce-raiding, in comparison to what other navies were doing in this era of rapid technological change. Britain's Anti-submarine Capability By George Franklin Britain's Anti-Submarine Capability, is the first unified study of the development of Britain's anti-submarine capability between the armistice in and the onset of the second world German submarine attack on Britain's maritime trade in The Navy of the Red Commanders

This book, based on extensive work in Russian archives, investigates how strategy

Product pricing will be adjusted to match the corresponding currency. Presenting previously unpublished photographs, interviews with veterans, newly commissioned maps and new translations of Japanese sources, this book freshly examines the key... Paperback – Routledge Cass Series:

Shopbop Designer Fashion Brands. British Naval Strategy East of Suez, Influences and Actions Edited by Greg Kennedy This new collection of essays by a panel of established international scholars sheds new light on what some of those influences were and what actions were taken as a result of Britain's Far Eastern commitments. He held one of the two major fleet commands between and and in he was Allied naval commander for the great amphibious operations in the Mediterranean.
