In the mid 19th century, horn players began to insert the right hand into the bell to change the effective length of the instrument, adjusting the tuning up to the distance between two adjacent harmonics depending on how much of the opening was covered. The name is a diminutive derived from the Latin cornu "horn". The name indicates, people originally used to blow on the actual horn so far. The Russian nobility developed a taste for horn bands, which were sometimes sold as a body—the performers along with horns—since most of the players were serfs. Shopbop Designer Fashion Brands.
