**The Echo of Battle: The Army's Way of War by Brian McAllister Linn**

In the echo of battle, the army develops the strategies, weapons, doctrine, and commanders that it hopes will guarantee a future victory. In the face of radically new ways of waging war, Brian Linn surveys the past assumptions—and errors—that underlie the army's many visions.

Lastly, I found Linn's occasional parochial service-oriented perspectives grating coming from someone who's central thesis seems to imply that the American way of war has been on a collision course with joint-ness either from internal review or external force for much of its history. An over-simplification but a good structure The Echo of Battle analyzing how the Army looks at problems. Josh rated it really liked it Feb 01, Interesting typology of U. This book is not yet featured on Listopia. Jan 10, Adam Elkus rated it it was amazing Shelves: Just a moment while we sign you into your Goodreads account. Do run into a rated it times the strands are so closely knit as to be indistinguishable; at other times they practically pull apart.
