My friend, author Tia Bach, has a new YA release, and it's on sale. I received this book to review from Bit'N Book Promoters. Reagan, a lover of paranormal books, finds her life has moved into the paranormal realm.

Her heart aches with the knowledge that there's nothing she can do together with her brother. There's something wrong with her but she doesn't know what it is and all she's getting is a vague runaround from everyone who seems to know but can't come right out and tell. As if that isn't a sweet enough deal, the first book in the series is free! But it only takes one incident to change . I loved every second of this book and highly recommend it. She thinks she is "pr" goes through a lot, from the loss of her brother to loved ones thinking she is crazy and needs to be locked up.
